Friends Volunteer over 7,000 HOURS!

Last year the Friends of the Library along with their helpers volunteered over 7,000 hours for the Stow-Munroe Falls Public Library! The Friends of the Library are an incredibly passionate group of workers dedicated to our library. Frequently their efforts are rewarded by the opportunities they have to impact the lives of library users of every age. The testimonial below was shared at the last Friends’ Meeting demonstrating the impact of their contribution.

Eager to Read

We’ve often used the slogan ‘Libraries Change Lives’ and occasionally we like to take the opportunity to share a story or two. If you haven’t experienced the best book sale in town, now is your chance because the Friends of the Library are preparing for their annual Spring Book Sale which will be open to the public on March 29. These book sales generate an incredible following of enthusiastic and dedicated book lovers. Newcomers are always amazed at the prices and the pristine condition of the material in these sales.

Recently one young mother of three encouraged her children to select some books for bedtime story reading. As she did some of her own browsing, she was interrupted by a gentle tug on the arm. Standing behind her, each child was carefully balancing an armful of books.

Struggling to find a way to tell the children that she simply couldn’t afford to buy all of their books, she stopped the Chair of the Book Sale Committee, Barb Beiling. Hesitantly she asked, “How much are your children’s books?” Barb replied, “Well, they’re three for a dollar.” With a look of amazement and gratitude, she directed the children to the checkout counter.

We all can appreciate a happy ending such as this. There would be no disappointments for these enthusiastic young readers. The Friends of the Library are often met with heartwarming experiences such as this typical interaction. They all agree that the most meaningful stories involve children. These book sales generate thousands of dollars which are invested back into the lives of library lovers in the form of programming for adults, teens, and children.
