Letter to Stow High Graduates:
It was perplexing when attending a high school class reunion recently to see how many of our classmates who had achieved high scholastic honors are now in the lower income brackets.

On the other hand, a startling number of graduates had just barely grasped or sheepskin are now in a more comfortable financial position, besides being civic and charitable leaders.

It didn't seem to make sense. Why were some of those we looked up to in school as "brains" now plodding along, satisfied with mediocrity? What did old "suitcase" have that they didn't?

It really wasn't hard to see, when we looked closely.

Ambition... drive... ye' goal! That's what the Successes had, whether they'd been dopes or wheels in school. Too many intelligent people had been satisfied to have intelligence, but had not used it.

The Champions had used every ounce of their abilities, and had climbed higher. They didn't expect the world to come to them, so they went out to get it.

OUR CONCLUSION: Remember the tortoise and the hare. OR it's better to be dumb and ambitious than to be smart and lazy. And if you happen to be smart and ambitious, I'll look for you on the cover of Time Magazine!

WAY BACK WHEN

Mrs. Dale Wright

Bar Mires 1800

This story is taken from one I wrote for John Paxton, published in KENT COURIER.

I was 12 years old in 1800. Bar Mires, on the one hand, was comprised of about 200 acres of land. The fires were believed to be incendiary but no proof was ever found for it. The blame for most of them centered around a young woman, Mrs. Oscar Wright.

Some history is here necessary. When she was a little girl, Lillian Riley, and a boy, named Will, couldn't recall his last name... were born out to Newman Chamberlain. They lived on his farm until each was married. We all called them Lill and Bill Chamberlain. Lill was quite a little bit older than Will.

As she grew up she acted strangely. We all thought her a little odd, and I must admit with shame that we made fun of her. But she married and had 3 children.

At the time this story begins she had quarreled with Oscar and he had left her. The first fire was in her own home. Lillian was at Church but there were other circumstances connected with this burning. The next evening Mr. Chamberlain's big horse barn burned. I was in the crowd that gathered quickly. I still recall this woman making wildly shout in the crowd with her long hair.

Mr. and Mrs. James Lundsford have purchased the Donald Buys property at 113 Munroe Falls Avenue.

Many happy returns of the day to Mrs. Lester North, who celebrated her birthday May 24. Mrs. North is president of the Stow-Munroe Grandmother's Club, member of the Daughters of America Council of Stow, and an active member of the Stow Community Church.

Mrs. Mary Sutton, Northmoreland Blvd., had a special reason for partaking of her ice-cream cake this year. Sunday, May 8, she had completed twenty-eight years of perfect attendance in Sunday School. Quite an achievement, Mrs. Sutton.

The Ladies Christian Aid Society of Zion Church prepared the Banquet supper enjoyed by the Mothers and Daughters of the First Christian Church, May 9.

Mrs. Clifford Swinehart has been released from the hospital where she had been a patient for quite some time. Mrs. Swinehart is convalescing after surgery, Mrs. Duane, William Thompson, and their children, and Cheerl Pick, have returned to the Village, after visiting relatives in West Virginia.
There comes a time in the life of all writers, amateur and professional, when they must get down on their knees. I am on mine now, pleading forgiveness (or insanity) to a large injustice in last week's column to the Future Teachers of America.

This hard working club voted to give Dolores Burdette $50 from their club treasury. The sum was presented to her on Recognition Day by the advisor Miss Velma Workman. Jim Cowles got the $25 Culture Club Award.

For all Girls' Athletic Association members, the picnic is at Silver Springs Park this Saturday from 11:00 to 5:00. Swimming, eating, games, installing officers, and mostly plain messing around are on the agenda.

(Editor's note: No more this week because of The Senior Prom.)

Mr. and Mrs. Leon Childs, 1707 Lillian Rd., celebrated their Golden Wedding Anniversary Sunday, May 22, with an open house for their family and many friends.

Leon and Clara were married in Erie Pa., 50 years ago, May 23. Their first home was in Conneaut, O. Later they moved to Cuyahoga Falls, where they resided for 18 years. Then 22 years ago the Childs came to Stow and decided to make this their permanent home. During these 50 years of marriage the Childs have reared 8 children, 10 grandchildren and 3 great-grandchildren. The youngest daughter, Lorain, who suffers ill health, makes her home with her parents.

Leon retired from Goodyear Tire & Rubber Co. in 1957, at which time he had been employed for 30 years, more recently in the Recycle Dept. Formerly he was an engineer for the Nickel Plate Railroad. Since suffering a back injury in a fall from a ladder in his home last fall Mr. Childs has spent more time in his easy chair, enjoying his favorite TV shows. But he still manages to find many chores about his residence which keep him busy.

Mrs. Childs has spent many years in the service of others as a practical nurse. She especially enjoys sewing, baking and keeping her flower beds in shape.

Many friends of the couple traveled to Stow from Detroit, Michigan, Conneaut, Ashtabula and Lorain to wish this couple well on this event. Many cards, gifts and flowers were received by the Childs.

The Childs' formula, which served to guide them through so many years of marriage is: "Faith in The Lord, Faith in each other and the learning in the beginning to 'give more and take less'".

CONGRESSIONALISTS ADOPT

**Many New Resolutions**

Support for all-in demonstrations in the South through declarations, prayers, contributions and other direct action was urged on members and churches of the Ohio Conference of Congregationalists in a resolution, adopted at their final session of the annual meeting, which took place in Painesville. This resolution also urged that this group actively support local committees for democracy and housing and support fair housing legislation in communities, where this has been introduced.

The study of the U.S. policy toward totalitarian regimes and the taking of appropriate steps along this nature, such as the settlement of the Korean question and the status of Taiwan, along the line of "Two Chinas," leading China to the People's Republic of China into the United Nations and finally recognition of the Peking government was voted as urged for delegates and churches.

Other resolutions adopted called for promotion of peace through a church-directed effort of programs; discussion and study of world-wide population explosion and effective ways in which nations can be helped to realize their full potentialities; increased American economic and technical aid to underdeveloped nations; abolishment of the death penalty. Congress was urged to expand coverage of federal minimum wage and hour law and realistically to increase minimum wage; and Congregationalists to urge the use of non-school facilities for week-day religious instruction in order to comply with implications of the recent Supreme Court decisions.

**WHAT A TV SET COST 25 YEARS AGO**

If someone complains that a television set costs more today than it did 25 years ago, you’d lift an eyebrow. A quarter century back, there were no television sets to be had— at any price. The same logic applies to the statement that prescriptions cost more today than they used to cost. The drugs you now get didn’t even exist until recent years. So the benefits these drugs bring—the rapid cures, the lives saved—could not be bought at any price.

**FUN That Costs Too Much**

You, no doubt, get full value for every dollar you spend on summer fun, whether you like golf, fishing, water sports or any other type of outdoor activity. But you know that accidents do happen and when someone gets hurt, they may say you were to blame. Comprehensive Personal Liability insurance protects you against such sports liability claims of very small cost.

Some Bide-A-Wee Club members, who took time out from fun and frictee to pose at the May 27 luncheon-meeting are: (L-R) Mrs. Lawrence Wetmore, Mrs. J. E. Sandercox, Mrs. Grace Noble. Seated (1-3) are: Mrs. Oakley Spaght and Mrs. Florence Gaylord, called the Stowaways. This group has been meeting for over 65 years. Origin of the club dates to pre-marriage days for all members, excepting one. Daughters and daughters-in-law have gradually joined. Membership is by inheritance only.
