Divers To Recover 'Bodies'  
Two supposedly dead bodies will be somewhere in the depths of Crystal Lake August 5 when three Stow firemen, using Self Contained Underwater Breathing Apparatus (SCUBA) in a regular drill, search for them.  
Crystal Lake swimmers will inform the SCUBA divers where the "victims" were seen in the water. From their training they know a person will struggle about in a 35 foot radius, and they will conduct their hunt accordingly.

David Dally, David McMillion and Russ Savage are the firemen making the search.  
The Fire Department has five men trained in SCUBA use. They are on call to any place in the Stow area.  
These men train every Sunday morning, weather permitting, at Crystal Lake. They practice surfacing, diving and exchanging equipment in seven to 40 feet of water.  
The SCUBA equipment was purchased through contributions from the Mrs. Elizabeth Deacon family, Wyoga Lake, Meadowbrook Lake and various others.

The public and all area fire departments are invited to watch this drill.

Voters; Register By Mail  
This is election year and many recent Stowites will be pleased to know they can change their registration by mail or telephone.

Anyone who has voted within the past two years is eligible. A request for transfer is made to Summit County Board of Elections. The Board will send a transfer which must be filled out and returned to their office before Sept. 28 or the request will be invalid.

Board of Election's phone is 2-8611.

Firemen McMillion, Dally and Savage (from left) take a break while practicing for Friday's demonstration.

Rose Ave. Request Denied by Council  
Stow Council denied the Board of Education's plea for a Rose Ave. cut-through which would provide an entrance to the High School athletic field.

The four-week-old hassle was brought to an end when Roads Committee, headed by Councilman Thomas Clarke, recommended the request be turned down for 3 reasons.

They were: (1) A road opened there would damage property of residents living along it. (2) Any opening should start from Rose Ave., which would be on Board's property and therefore their responsibility. (3) If Rose Ave. were opened, it would be a completely unrepaired street -- "another headache!"

Council voted against the request.  (cont. on P. 8)

Boxers 'Box In' Jim, Pat Thompson  
Dogs, dogs, and more dogs! Jim and Pat Thompson of 4192 Stow Rd. have been surrounded by them for the past 15 years.

Their pure bred animals have won them a trunk full of ribbons and a house full of trophies.

Mr. and Mrs. Thompson got their first dog in 1945. Since then they have kept Boxers, Cocker Spaniels, English Bulldogs and Russian Wolfhounds, but they have always returned to the Boxer breed. "We like their temperament. They are wonderful with children, and a very stylish dog, too," says Mrs. Thompson.

At present they have five Boxers which include three generations -- grandfather, father and son.

Recently the Thompson's left grandfather Boxer at home and took father and son to the McKinley Puppy Match at Canton. The 11 month old boxer won the best male puppy award in the boxer division, and he father took best of breed in the senior division and third in group. The Thompson's home later with three ribbons and three trophies.

Jim and Pat, along with eight others, organized the All Breed Training Club of Akron, Inc., 12 years ago. This is an obedience club which trains dogs for private and show use.

Jim is licensed by the American Kennel Club to judge Boxers, and is now studying other breeds.

Way Back When

Part III of Stow’s History

by Frank Green

In 1834 Mr. Wetmore and his sons laid out a Village in what is now the northern part of the City of Cuyahoga Falls. A dam had been built sometime before this across the river and several mills were built for making flour and oatmeal and of course lumber. Mr. Stow invested heavily in these ventures. Quite a village grew up here. All of this land was then in Stow Township.

Judge Wetmore died in 1827 but his sons kept up his good work. Cuyahoga Falls was a good sized town when it was incorporated as a Village in 1836. To make the town two sections were taken from each of the adjoining townships of Stow and Tallmadge, Northampton and Covington. The rest of the Township was framing to form the Village of Stow.

Senator Smudge continued, "We are a second rate power world," he said. "If the Nondescript party is not put back in office this November, the world is doomed," he screamed.

As if on cue, the convention delegates leaped from their seats and hollered and stomped their feet and had a grand time. "That Senator Smudge, he’s all right, boy, he knows his name, ye apostle of ye Nation," they shouted.

The enlightened Senator bellooned on. "The Nondescript Party promises the people with nothing—something...to the people with something, a little more. In short, delegates, we will dedicate ourselves to giving everybody everything.”

Good old Senator Smudge! Mr. Party—Mr. Nondescript!

"I am here to place in nomination for president, Senator Jarrin’ Jack Jingle. He is the man to lead our country during the coming year. The man who will give everybody everything." Senator Smudge ended.

One last month of summer fun - Take it, everyday and enjoy the sunshine, remember how long and cold the winter can be.

IN APPRECIATION

Mrs. Ruth Reel, 3560 Orchard Dr., wishes to use this column to express her deep gratitude to neighbors and friends, some of whose names she does not know, for the many kindnesses when her husband, Chester G. Reel, died suddenly July 20, at their home. Mrs. Reel plans to continue with her work with Standard Drug, Stow Plaza.

"Gerry and Bob Blanch, former residents of 308 S. Edgewood Dr., are busy "getting settled" in their new home on Graham Rd., opposite the Silver Lake Country Club.

Mr. and Mrs. A. J. Alexander, 3440 Oak Rd., entertained Submarine Commander Joseph Adel¬man, his wife and their five chil¬dren Tuesday August 2nd. The party was held at their home and Mrs. Reel plans to continue with her work with Standard Drug, Stow Plaza.

Mrs. Clinton Baden, 2216 Lynnwood Dr. (and three sons) will accompany Mrs. Baden, who is a captain in ROTC at Akron University, when he is sent to Fort Leavenworth, Kansas, to attend the Command General Staff College for nine months of training.

Members of our Lady of Good Counsel Club will meet with their husbands to enjoy a picnic supper at the home of Mr. and Mrs. Kevin M. Padell, 3474 Edgewood Dr., Saturday July 20th. Mr. and Mrs. James D. Thompson, 4192 Stow Rd., will hold a picnic at their home August 6th for the All Brent Training Club of Akron, Inc.

It's fun to "put and putter" around home and spend a relaxed two weeks vacation golfing and swimming. This is how the Norma Haines, Adeline Dr. spent theirs. They did spend a couple days in Detroit, Michigan.

Rev. and Mrs. Douglas Potter, minister of the Stow Presbyterian Church, have returned from a month vacation enjoyed along the shores of Lake Erie.

HIGH WAYS

Well, I'm hearing lots about Kent State lately. All the people who are going this summer! Sally Eshman, Carol Ferrante, Tom Homa and Bruce Trumer. Helen McFarland, Gayle Gordon, John Moore and Carol Hagat.....these are only a few of the Stow Hi graduates beating out their brains in this heat.

Mr. Walker, one of Stow Hi's teachers, and Mr. Ramsey, a substitue teacher there, are handling the summer session this year. Mr. Harold Carpenter is talking physical ed courses this summer to complete his degree. You probably know him as a student teacher under Miss Workman last spring.

And what does one hear about vacationing folks? Not much, buddy! But what a time Karen Bosley and Jacki Horner had for two weeks in New England! They had just two days to rest from Camp Christian when the Horner family went touring the New England sites to see the things they could see. They stayed in Maine the longest. They had a cabin on the lake, she said, "and it was furnished." There was a lodge on the lake and a girl, Elsie, who worked there took Jacki and Karen on excursions in her motor-boat or in a canoe.

One time Jacki wanted a close look at a loon (a bird) on the lake. So she and Karen hopped in a row boat and took off. But Jacki was rowing and the oars kept falling out of the oars and Jacki was so busy she didn't have time to look. But to top things off, a little sweet bee came along and bit her, giving her an awful swollen arm. And it was all those crazy loons' fault.

On this lake there just happened to be a Methodist Camp, a Y.M.C.A. Camp, and three other boys' camps! Besides all the fun in Maine, they went to Greenwich village, New York, where all the beatniks live. Jacki is home now going to college, but Karen had a week's rest from vacationing and took off again—this time with her family for four weeks in Yellowstone National Park in Wyoming.

Say, Don Gray went to New Jersey last week to visit his aunt and uncle and their family. Jacky Bird's family from the hospital, and is better.

Errors Nip Lakers

Two Laker errors proved the margin of victory for the Athletics in a July 28 extra inning game. The score was tied at 3-3 when Athletic Tom Bowen tapped a single to start the rally. Wilmot, the Laker hurler, walked the next two batters, loading the bases. Tom Moore made an overthrow at first at which scored a run, making it 4-3, Lakers.

The final run came when Wilmot balked, forcing the third base runner home. The Lakers were unable to come up with any runs in their half of the inning, and the final score remained 5-3, Athletics.

At Lawver was the winning pitcher, Wilmot the loser. Laker batters had a good day at the plate, outitting the Athletics 12-7, but those hits were scattered and ineffective.

For the Lakers Moore belted a double and two singles, Hoppes and Crowe hit three singles each and Wilmot got a double and a single.

NEW IDEAS FOR A NEW ERA
Lazy Critics Cause Controversy

by Bob Golden

My boss said sit down and write about some controversial thing. So I sat down and tried to think of something people were really fighting about each other.

And then I thought why do people have to be fighting about something in order that it be controversial? Why can’t people just try to understand each other and make a rational attempt to resolve them?

Then I recalled that most controversial matters I’ve been wrapped up in are made controversial because of the mass criticisms one side hurts at the other. Which leads me to set the subject controversy aside and take up criticism. Criticism – the unanyl monster that can stretch, distort and make much of nothing when it isn’t used constructively.

People at times talk or hurl half baked statements and then think about what they said later. Later isn’t good enough; the groundwork for more misunderstanding has already been laid.

Stop for a minute and think about the growing number of nonsensical things you are criticized for nowadays.

If you’re quiet, you’re either dull or a snob. If you’re loud, you’re accused of being an incessant attention-seeker. If you save, you’re a miser. If you spend freely, you’re crammed into “A fool and his money are soon parted” category.

The intellectual is criticized; he’s called an éghead and told he doesn’t know how to handle life. The average person is not to be associated with because people are a bore.

The college man looks down his nose at the laborer, the laborer sneers “ aristocrat” in retaliation. One race criticizes another for having different facial structures and skin colorings and the criticized race abouts back hate.

A list of these injustices and inconsistencies would probably be infinite. A sane man, stopping to think of it for awhile, might well be driven mad. But we needn’t worry about that because we are all very careful not to.

And so we have race riots, and world wars, and wounded feelings, and people of the same communities battling each other. We have all this because the price of understanding is a little too high — criticism is always cheaper.

By October Mrs. Greenleaf’s three and Mrs. Gayer’s two children will be attending Stow schools, leaving her free for their new Jack and Jill Kindergarten.
