MINISTER’S COLUMN

Beware of the rattle. Not the baby's toy, but the rattle. Sometimes it is a window, sometimes it is a door, sometimes a loose bolt or rod or you know something that rattles. Very annoying is the rattle. It probably could be fixed with a little energy and attention. But vexing indeed is the rattle. Sometimes the man who knows the least talks the most, words, words, words, and so we have the rattle. Sometimes one finds a hobby, tobacco, religion, or politics. No matter what the subject is, where they start or what the occasion may be they will land all fours on their pet theme and so they rattle. When a rattle-snake rattles it is out of great consideration for the welfare of the pedestrian. The reptile's rattle is a warning, keep out, it says, stay away. However, when a human being rattles, he says, come near, let me add to your misery and discomfort, and so they rattle.

To rattle, something empty, something noisy, something loose, something needs attention.

In the mighty conflict of the human race there is, many a rattle, much that needs fixing. A repair gang may always find work. Take a hundred marbles all sizes, put them in a measure of any kind or description, shake them about, now look at them. The little ones have all rattled and shaken to the bottom. No doubt you are home so the moral has been taught. Reverse the measure, turn it over so the bottom is on top, shake them again, now look. The big ones are on top and the little ones have rattled through to the bottom.

It's hard going these days, my friend, and that's no joke. I know the steady pull that such times as these require. But brother, don't rattle, buck up, stay on the top. Give constructive thought, give a brave heart, give us’ vision, and hope and a helping hand.

My church, have a mighty purpose, let the light of the Almighty blaze in your eye, neither cringe or slink, refuse to be an idler or a drone. We have a mighty work under God, it's our task. And happy are we, for we believe in the Christ of God. Our faith is undaunted, we press on. No rattle, no cowardice, no retreat, with unfaltering trust we tighten the burs and eliminate the rattle, for even a church, a government and a home can rattle.

Merit Meats, Stow

If you did not see it in the paper last week possibly it was among the news items that were left out on account of lack of space. If there is room possibly Mr. Howe will include some of the old items this week.

Erratum: One item left out or mixed up two weeks ago—Mrs. C. F. Meredith is now serving on the jury.

The people in Stow seem to be very much interested in poetry. The editor has received a considerable number of clipped poems, etc.

If you don't see yours right away don't be discouraged—it may appear later.

Spring is here (?) The Stow Hardware are selling seeds and with this issue we are distributing their seed catalogues. Mr. Wheeler tells us that orders and specifications for 1936 seeds are now in to the growers. What if we had to order our spring clothes a year ahead of time?

The Trustees of Silver Lake Estates, through their contractor, Mr. C. E. Hoffmaster, have just completed an 18-foot extension on the diving table for new spring boards at the bathing beach. L. H. Golden Text for Sunday: “God is no respecter of persons; but in every nation he that feareth him, and worketh righteousness is accepted with him.” Acts 10:34-35.

How would you like to receive this paper through the mail? Well, we are thinking of sending it that way. However to get it entered as second class matter here are a few of the difficulties which we will have to overcome.

1st. The paper must be issued regularly.

2nd. It must issue from a known office of publication. An office of publication is defined as being the place where the paper is printed. It must be open during the regular hour of business.

3rd. It must be published for the dissemination of information of a public character.

4th. Must have a legitimate list (preferably) of 1000 or more subscribers. There must be no
free circulation. The subscription price must be more than nominal.

5th. The advertising must not be excessive. In other words it must not be run only for the benefit of the advertisers.

6th. An application fee of $25, $50 or $100 is required according to circulation.

7th. Since our papers run in weight somewhere between 32 and 48 per pound, the postage rate probably would be 3¢ per pound, though in one place the postal regulations say religious publications go through the mail for 1½¢ per pound.

8th. As a religious publication, the paper should be run with no pecuniary remuneration to any individual.

Avon S. Clevenger of Gilmer county, West Virginia, is visiting Mr. Fred Bush of Darrowville. If he gets a job, says he will be a “stayer.”

It is stated that Floyd Dillon of Ritchie road has a new motor car which is rather temperamental. It runs backwards nicely but refuses to go forward unless towed.

Mr. George Stinard, Ritchie road, has purchased two new horses recently. He probably expects to do a lot of plowing this spring.

George Chandler is expected home from CCC camp about March 1st. He has been in California.

Mr. Jay Collar of Darrowville who is 80 years "young" states he can scarcely wait for spring to come so he can get out and start his garden. His neighbors say that when it comes to gardening the young folks will have to do some stepping to keep up with him.

Mrs. Cowell, the author of the poem about Mr. Howe appearing in this issue, has been sick the past five or six weeks. She says though, it is a great pleasure to live in Darrowville where there are such wonderful neighbors who come in often to cheer her up.

THE PRINTING SHOP
The old printing shop has stood many a year,
The printer he works hard all day.
His hair is turning white, his eyes growing blear.
But to him this old shop is so dear.
You watch him at work.
Setting type in his joy,
His duty ne'er shirked.
Since he was a boy.
An “A” goes here and a “B” goes there.

All upside down says he,
Emblems go goodness knows where,
But that is his duty you see,
A wee card or a large one.
A program or a bill,
Papers from the church come.
He prints them with a will.
With courtesy and pleasure.
He takes work with a vow.
Money is not his treasure.
For your printing go to Howe.
