CAPITAL AND LABOR

Delicate and difficult indeed to write about is this most colossal and age long conflict, namely,—Capital and Labor.

But, brethren, have you ever thought of the stupidity of this contention? Isn’t it reasonable to believe that strikes, lock-outs, sit downs, riots and such like will be viewed by some advanced civilization as barbarous, inhuman and grossly ignorant?

Capital, my friend, has been since the world began. From the beginning one man has owned more land than his neighbor, or one man would accumulate one thousand sheep and five hundred camels while other men would have a score or less.

From time immemorial one man has been the possessor of five talents and his neighbor had but one. One man among five millions is born to be a great leader while the others are not so gifted.

Heaven may have equality but on the sojourn never. Be reasonable my laborer friend, why does any man labor? What is the only conceivable object of labor? To get something, to lay up in store, to accumulate, which is capital.

Any healthy man can produce more than he can use for himself, hence his surplus is capital. That capital means ease, rest, amusement, life. Someone has said that labor and capital are one, that the public is a cow, that labor and capital are the thumb and finger which properly cooperating gets the milk.

Labor always must of necessity do more than provide for immediate needs, canning fruit or filling coal bins for winter, these will suggest that Labor seeks a home, provides life insurance, educates the children and plans for a rainy day.

Capital cannot live without labor. Suppose the factory closed down, how will Capital pay taxes, keep up repairs? Capital’s only salvation is to find profitable investment, labor, without interruptions, is the only stream of life for capital.

Labor and Capital alike cannot live and be antagonistic, they can only live and succeed by cooperation. Whoever thinks that either can prosper at the expense of the other is mistaken. Capitalists who seek to exploit Labor and Labor that is bent on destroying Capital are alike fools.

Capital long ago would have owned and enslaved the world, however, Capital is like a flame always needing the fuel to keep it alive, and the heat thus generated is a useless thing unless it be put back at once to Labor.

Capital and Labor are two partners, two friends. It’s wicked for them to quarrel. They are one, their object is production, and production is life.

Surely, sometime man will find

YOUNG PEOPLE TO ORGANIZE
Rev. Hulme Preaches A Splendid
Sermon

Last Sunday evening Mr. Biggs
called a group of young folks to-
gether for the purpose of restart-
ing a Young Peoples Society in
our church. A nominating com-
mittee consisting of Howard San-
ner, Mrs. Judy and Betty Cross
was appointed. These three peo-
ple will also act as a sort of
planning committee and will re-
port this next Sunday evening at
six thirty.

Now, possibly partly on ac-
count of the fact that the young
folks have started a meeting in
the church, and partly because
the church was warm while the

atmosphere in the tabernacle was rather coolish, the last Sunday evening service was held in the church auditorium. Flowers, collection plates, etc., were in the Tabernacle. But the folks were in the church. So in the church the service was held.

Again Rev. Hulme preaches an excellent sermon. After a service of song led by our able choir director, Mr. Swanson, a quartet number “One Sweetly Solemn Thought” sung by the “girls” Miss Betty Cross, Mrs. Cross, Mrs. Judy and Mrs. McColgan, the scripture reading, hats passed for the collection and a song by Helen Coy, daughter of Mr. and Mrs. Mell Coy of Cuyahoga Falls, Rev. Hulme preached on the subject—“The Church That The World Has Rejected.”

It goes without saying that the old church of 20 to 30 and 40 years ago has been rejected largely by the peoples and nations of the world. Storms have been blowing up and down over the surface of the earth during the past two decades. By reading nothing more than the front pages of our newspapers we know that Russia rejected the church, church buildings being either destroyed or used for other purposes, Spain as a nation has done away with the church, and Germany has very largely rejected the church and may entirely eliminate religious freedom most any day now.

True, a small or larger number of individuals in each nation still keep the lights of Christianity burning in their homes, but their rulers have rejected the old church.

In Akron at the very hour Rev. Hulme was preaching, the more wealthy churches have closed their doors, there is no Sunday evening service, but, the theaters are open and jammed with people, the beer “joints” are crowded and will be open as long as the law permits, such is the condition that exists all over our own land.

He asks the question, “Have any of the nations, or any of the cities, or any individuals who have rejected the church become any better off. Are they richer? Are they smarter? Do they have any more peace of mind than formerly?” The answer is no. The statement then follows that a man is a fool who lets slip the little that he has unless he gets something better in exchange.

The second thought is: Why? Why has the church been rejected? The answer is given by asking the following questions: What has the church of America done for the United States of America? They have done much but never functioned as they might have. What have the churches done about vice conditions? Do the churches of Stow ever try to get ahold of any “bad man?” Why did the churches close in Mexico for a time? Answer—What did the church in Mexico ever do for the poor peon? Rev. Hulme made...

the statement that the individual who belongs to a church without an experience under God does little for his fellowmen. Sooner or later fellow workman will reject his so called Christians or so called religion. He has nothing to offer. There is too little difference between the church member and the man of the world. Many then ask why belong to the church when it’s full of hypocrits.

The church we should have is the church where we will find wisdom, it is the church where we will find guidance. It is the church where the need of the human heart for the touch of God is available. It is the church that can give courage so that “I can face tomorrow and its duties.”

The last thought is found in Romans 14:17. For the kingdom of God is not meat (eating) and drink (drinking); but righteousness, and peace, and joy in the Holy Ghost.

“The church will be vital to our life and the lives of others only when each of us does his or her very best, because of a strong and sincere love for our Lord Jesus Christ.”

That our Bible School orchestra performed very well last Sunday morning all agreed. That our orchestra would be a credit to a Bible School of two thousand members is the report that Rev. Hulme brings back from one of his musical friends who visited us two or three Sundays ago.

That our Bible School attendance is much less than 2000 is a self-evident fact. Now it is up to us to increase our Bible School attendance. Make it more in keeping with the quality orchestra which we enjoy each Sunday morning.

Therefore, to this end last Sunday morning Rev. Hulme made a motion, seconded by Mr. Lodge, that the first Sunday in October be observed as Rally Day and that the men and boys compete with the women and girls in bringing in new members, visitors and back sliders. Five points are to be allowed a member who brings a visitor, ten points for an old member returned, and twenty points to be granted for a new scholar. Now to make this competition really attractive to the men and boys it was voted that the losing side supply ice cream bars to the whole Bible School. We are somewhat in doubt just how well this last suggestion would work out for five hundred ice cream cones cost $25.00 and that's a lot of money.

Anyway Sunday, October 3, 1937 will be Rally Day at Com-

SUBSCRIPTIONS

Knowing in a general way our weakness, viz., a lack of cash, a lady approached us last Saturday evening with a hand full of quarters which she wanted to give to the Community Church News. These quarters will be used to pay for approximately a quarter of a hundred new gift subscriptions. For both the money and the subscribers we are thankful. It takes both to make a successful paper.

Furthermore, anyone who wishes can duplicate the aforementioned deed. It would please the editor. Advertising of late does not bring in quite enough to pay the entire cost of printing. A few more subscribers would help out a lot. There are many things which we would like to do in connection with the paper if the cash were available. Have your non-subscriber friends subscribe

wiener roast at the Sutton home Friday evening. Twenty children were present and enjoyed a fine evening together.

Mrs. Douglas, Mrs. Clason, Mrs. Klein, Mrs. Sutton and Mrs. Wagner attended the all day Missionary Council meeting last Thursday at the First Baptist Church in Cuyahoga Falls.

Rev. and Mrs. Douglas, Mr. and Mrs. Biggs, Mrs. Wagner and Mrs. Rutter went to the Hungarian Baptist Church Monday evening to the covered dish luncheon and quarterly meeting service of the Akron Baptist Association. Dr. Sharp of Cleveland was the guest speaker.

Mr. and Mrs. Frye called at the Kincaid home Sunday afternoon and found the scarlet fever patients very much improved. They will still be in quarantine for several days.

AN UNUSUAL EXHIBIT

An unusual exhibit at the Stow Garden Club's Flower Show held Tuesday, the 31st, at the rejuvenated old Town Hall, was a gigantic Common Thistle, Carduus (Cnicus) Discolor. (Sunflower Family).

This huge thistle exhibited by Wm. R. Lodge, and taken from a temporarily abandoned garden plot in the Mary Ellsworth Lodge Bird Sanctuary at Silver Lake, is eight feet and seven inches tall with a half dozen large branches irregularly shooting upward from the main center tree like stalk, thus giving a spread of over five feet and with its purple flower tips reminds one of a peacock's tail.

This immense beautiful plant has over a hundred buds and
All of Stow--

blooms on its tips and was a great attraction in its central location in the end of the hall. Many folks despise the thistle, but this variety is not considered much of a pest like its cousin and outlaw, the Canada Thistle, nor is it hard to get rid of like the Canada. They usually grow only two to five feet high, but this has been a most unusual growing season. No especial care, or fertilization had been given this plant, and it was only discovered about a week ago. The gold-finches or thistle birds are fond of it.

It was a big job to place the over 100 pounds of porcupine like bush with a bushel of dirt on its roots into a galvanized tub for a pot so as to display it. It is the intention to try and keep it for exhibit at the Silver Lake Garden Club's Flower Show at the school house on Saturday, September 11th.
