THE BIBLE

Now, my dear friend, just why do you read the Bible? Suppose the All-Wise and Infinite Being, the discerner of the purpose and intents of the human heart knows our secret thought, and suppose He, the Omniscient God, knows the object for which we read his word, now with this stern reality before us, let me guess why the average person reads the Book.

They read the Bible as a student would read a text book, as a preacher, theological student or Bible teacher might run over the Book to re-enforce some truth or assemble data for a subject.

People who are not Christians read the Bible. I know an attorney who reads it for quotations, for arguments, for debate, to disprove it.

Another class reads the Bible because they find themselves crushed. A great sorrow has overtaken them, death has invaded the home, so the dear old Book is brought forth and read.

Folk read the Bible as a matter of duty. They are proud to say they have read the old Book through twice, the Book of Psalms a half-dozen times and the drama of Job many times.

Now, my good sir, why do you read the Bible?

Again, let me answer for some. We read the Bible because it builds blood and fiber in the soul life. It confirms and nourishes the hope of immortality, it takes us into the confidence of many of the mighty men of faith. It satisfies, it establishes our going.

O, how this Bible has brought to the race many, very many, of the most worthy values of human society, such as, Hope, Inspiration, Joy, Peace. The Bible furnishes the standard of morals for all people and all times. All safe leaders of the human race have been and always will be, close students of the Word of God.

GEO. M. HULME

THE BULGINS

When you read this Dr. and Mrs. Bulgin will have been in our community for a period of four or five days.

Dr. Bulgin will have delivered several sermons. Mrs. Bulgin will have led the singing for about the same number of times. And, if you have not heard Dr. Bulgin and his wife you will have missed a great deal that is good—good for you—good for your soul. Therefore do just this.

Come out Sunday evening and listen to a sermon extraordinary. It will be to your profit.

GEO. M. HULME

DECIDE

Again last Sunday at the close of Bible School a large number of young oflks decided for Christ,
many for the first time. As soon as it is possible to secure the names of all who went forward we shall list them here. It is to be hoped that there will be many more to make the important decision during the Bulgin Revival meetings this week and in the days to follow.

NOTICE

The Stow Civic Association meets at the Town Hall Tuesday, March 15th at 7:30 P. M. A special report by the Water Committee will be given. There are several new developments to debate. Come and find out all about water for Stow.

LODGE NOTICE

Paradise Council 330 D. of A. will hold their regular meeting, March 16th. Refreshments and entertainment pertaining to St. Patrick's Day will follow the meeting.

The Final Tribute...

cannot be too beautiful. We keep this fact in mind in every instance and occasion. Yet the cost to you is no more.

THE McGOWAN FUNERAL HOME

WA-1313  247 Stow Ave.
Cuyahoga Falls
GRANGE NOTICE

The Darrow Street Grange will meet Saturday evening, March 12 at the Grange Hall. The picture, "Hidden Enemies" will be shown. There will be special music.

This will be the third evening of the attendance contest. There are only three more meetings before the finish. Let all try to attend and help their side to win. The captains are Mrs. Arba Ritter and Mrs. L. B. Richardson.

DEATH

Mrs. Bessie (Tuller) Hall died Sunday morning at her home, 131 Hudson Rd., Stow. She is survived by her husband George William; one daughter, Mrs. Stanley Darling of Stow; two sons Louis C. of Buffalo, N. Y. and George L. of Akron, also two grandchildren. Funeral services were at the residence Tuesday afternoon, Rev. Gregory officiating. Burial at North Madison, Ohio.

FROM POVERTY TO PROSPERITY IN STOW

During the past few days many interesting discussions in Stow have taken place on 'Ways and Means' of bringing back prosperity, health and happiness to our home folks here. A brief summary of a part of the ideas which have thus far been put forth follows:

However before we start let it be understood that our sincere belief is, that ideal conditions here on earth will never exist in the present dispensation so long as we fail to love the Lord above all else, and second, to love our neighbor as ourselves. Much could be said on this topic. Read on:

First—Take a census of the unemployed in Stow, also a census of those who would be willing to aid along the lines indicated in any of the following suggestions.

Second—Whenever, or wherever possible, place men and women listed by the census committee in jobs or positions either in Stow or wherever jobs are available.

Third—Start a Stow industry, or better a series of industries. Hook these industries up with the abilities of those now out of work or with those willing to work.

Fourth—Along with the industries, organize a cooperative society to the end that all in Stow may produce to their own benefit along the lines of food, clothing, shelter and other miscellaneous items. Inasmuch as is possible at first, this production is to be accomplished without the use of money. However, those who do not cooperate in labor and so wish may purchase Stow industries products with cash.

The plan may be made to work like this:

A—Materials are secured for a home. These materials should be made in Stow, or secured from those who spend their money in Stow. The money to buy essentials can be raised in Stow.

B—Select the family in Stow who most need suitable housing.

C—Secure lot or acreage free from encumbrances, if family does not have one.

D—Gather members of the cooperative and erect a modern house in as short a time as is possible on this lot or acreage. No Sunday work however. This will involve the use of an architect, landscape gardener, laborers, stone and brick masons, carpenters, plumbers, plasterers,

electricians and any other class of help that might be necessary and available.

E—According to the value of the work done, all those involved in the above activity will receive a dollars and cents credit on the books of the cooperative society. The man or family for whom the house was built would be indebted to the cooperative for the same amount.

F—Project number two could be attempted now. Individual No. 1 for whom the work was carried out would now start on project number two and thereby start to pay off his debt. Members of his family could be likewise engaged in some project, the labor on which could be applied on their debt to the cooperative.

G—Activities of the cooperative would not necessarily be limited to house building. If a canning factory was started in Stow, canned goods could be applied as a payment on a home. If a clothing factory were in operation clothing could be used to pay. A man handy in the use of tools and able to manufacture

WA-2224  1890 Front St. Cuyahoga Falls
furniture could turn work of that sort into the cooperative account, etc. etc.

H—That which one would receive in benefits through the cooperative would in time be governed by the individuals activity in the society. A man who worked a great deal and accomplished much would be entitled to receive more goods in return for his efforts than the lazy person.

I—Any person deserving to withdraw from the cooperative and owing more than he had put into it, would be required to pay the balance due, in cash or to pay over an arranged period of time, or return the goods, property or

what not at its then estimated value.

Fifth—As most people not now employed in regular industries are receiving aid through WPA, direct relief or what not, it is suggested that at first activities in the cooperative be carried along in addition to WPA, etc. Since no money would be involved this ought not to be objectionable to Uncle Sam. Furthermore those who only work one or two days per week in our Akron factories and who are old residents of Stow could be included. In fact anyone who wanted to help would be welcome. In time, if enough activities were in operation, the necessity of WPA and direct relief might not be so needful as it is now.

Industries of the above sort for Stow are not suggested as a mere temporary measure. In the not too distant future cash for useful products would be received from outside sources. If successful, the cash would be in excess of that necessary to purchase raw materials not obtainable in Stow. Dividends to workers, who would own the enterprises, could then be declared once each month, or oftener. Dividends received by an individual would be in proportion to the work done by said individual.

This brief summary does not include many of the ideas, such as banks, insurance, hospital or medical associations, etc. that might be carried on in Stow and which would make our community a better place in which to live.

Members of the Ladies Bible Class reported sick last Sunday morning were Mrs. Chipps, Mrs. McColgan, Mrs. Gillam and Mrs. A. F. Stein. Mrs. Stein, who was reported as going to the hospital last week, did not go.

Mr. and Mrs. C. V. Coe and daughters Phyllis and Beverly, visited over the weekend with the B. B. Mineards of River Rd.

This is not all

The mistakes in this paper are as a rule both numerous and quite evident.

Two weeks ago the wrong number for the Books of the Bible was given. Same issue, a notice to Grange members was mixed up with Chips From Bulgin's Ax. Other things were wrong too—last week Mrs. Al Stein was reported going to the hospital; and this week, just wait and see. Probably the time when there is a perfect specimen of the Community Church News produced, there will only be one new item. It will read—"No Paper This Week."

No! We don't mind if you call the mistakes to our attention. In fact we are thinking of offering a prize of five dollars to the person who can find the most mistakes in the paper for say about one month.

P. S. Please remember we are only thinking about offering a prize—only thinking.
