STUPIDITY

I should have thought of so interesting a subject long ago, however, one usually picks his subjects up from observation or experience.

This day, July 5th, 1938, I see on the pictorial page of The Cleveland Plain Dealer the picture of ten men walking across a street in Berlin, Germany. These ten men have been ordered by the government to walk across a great thoroughfare with baskets over their faces to show drivers how careless they may expect pedestrians to be. No man has ever driven a car for one day but he has marvelled at the stupidity of the jay-walker.

No one having occasion to dash across the great arteries of traffic but well knows it's a toss between the quick and the dead. The pedestrian may be likened unto a toad, for he never knows which way a toad will hop by looking at it, it's just stupid.

The average driver may be likened to a chicken, the foolish thing is more apt to run into danger than avoid it, it's just gross stupidity.

Now, stupidity is great dullness of the mind. It is to be incapable, wanting, slow, dull, heavy, foolish or stupid. Confidence men roam up and down the land relieving the stupid of their hard earned cash.

When the man at Titusville, Pa., sold his farm, stony and unproductive, for eight hundred thirty dollars, even money and no sense, and then learned that the old farm would produce oil valued at five hundred thousand dollars a year, he was stupid.

When the dear aged couple in Franklin, Pa. was so overjoyed after making the sale of their property that they counted their money between them as they sat on a bench in the park and then in their ecstasy walked away and left their little fortune on the rustic seat, they were stupid.

Every community could contribute scores of the most ridiculous and unbelievable acts of stupidity scored against intelligent folk. Most of you good readers could tell more than one good joke on yourself. Few indeed are they who haven't played the fool at some time or other.

Intelligent behavior by a human soul savors of grandeur, is commendable anywhere on earth and certainly is approved by the most high.

Now, my good neighbor, it is rather stupid of you to waste your influence. You are passing this way just once, better come over on the Lord's side and line up
where your influence will count in human value.

Time is a precious gift, don't be stupid now and trifle away the golden years. You are rather boastful that you haven't been to church for ten years. Stop it, friend, your spiritual senses are dull and stupid, you act the part of an imbecile, for stupidity in its full and advanced stage is insanity. So remember we should scatter seeds of kindness for our reaping bye and bye.

Don't forget the picture in Berlin of men with baskets on their heads indicative of man's stupidity. Now don't pass the church as though Adolph Hitler had ordered you to wear a basket over your head.

will eventually pay in taxes one way or another this $63,000 which will be donated by the Federal government, if, not to our community, then to some other township. A recent vacation trip thru the southern states revealed twenty or thirty of these new PWA schools along the route. We will pay for these schools in other communities, why not let them help pay for ours.

that may be however is a matter for the Lord and Mr. Biggs to decide. Personally we think many times a good, clean, upstanding Christian layman can do as much work for the Lord as a minister.

Birthdays celebrated at Bible School last Sunday morning were those of Billy Huvler and Mr. Charles Traxler. Mr. Traxler as the oldest man present spoke briefly on his experience with forty Bible Schools of which number he considered ours best, for, he says we have the best superintendent, best orchestra, best song leader and best boys class, because of the way their teacher holds them. This last, is the only mis-statement he made. He does not know how our attendance has decreased of late.
