BOOST YOUR CHURCH

Sunday evening services will begin November 6th at the Community Church in Stow. Come, be a booster. For the four Sunday nights in November the services will savor of the old-fashioned revival spirit. Their success will depend largely on your interest and co-operation. Be on hand, bring a friend, enter into the spirit of a going church. Boost.

The great games and contests between our mighty colleges would lose much of their driving zeal were it not for the band, the cheer leader and the lift of thousands of friendly followers. Their courage, their presence, their shout charge the very atmosphere and drive every contestant to his utmost, more, he is himself plus. As he feels the spirit of eager onlookers the player is changed into a superman, he can run faster, play better, jump higher. The team can turn on more power and drive for the objective with tremendous energy for they are actuated by living, interested witnesses, they are boosters.

Come, my church, we need the courage that is generated by the company that boosts. Away with the critics, be gone fault finders, hide your faces you grumblers, and all ye who retard and cast shadows across the onward march of God's own.

Fall in line, good people, we shall win, we shall have our desire, our prayers will be answered, our reward is at hand, our objective shall be gained. Boost, again, good people, boost.

When Jesus urged his disciples to steady themselves and free themselves from useless baggage and go forth as conquerors his words in Luke 12:32 were "Fear not, little flock, it is your Father's good pleasure to give you the Kingdom."

Be encouraged, my good folk, there is a sign of going in the tops of the mulberry trees, the mighty God breathes upon the grove. Trust Him, love Him, serve Him, move on and boost. We have no time to lose in compromising with the foe, or with fault finders, or with wolves in sheep's clothing. See not, hear not, neither be influenced by such as the spies that told of giants in the land, or the Sanballats that would deter the rebuilding of the walls of the beloved city.

Rise up, my people, and boost. Say unto yourselves you are engaged in a great work, that is, advancing a Community Church in Stow, that for the glory of God and the good of the people. Boost, friends, that will bring the blessing, Boost.

TO THE VOTERS
The Stow Board of Education informs us that on Tuesday, November 8th, an opportunity will be given to vote on a four mill levy for a period of five years. The proceeds of this levy will be used for operating expenses. This is not an additional levy and will not increase the tax rate. It simply renews the levy that has been in effect for the past ten years. No district in the county is able to operate without an extra levy of from three to five mills. Our school board hopes that you will give this levy your favorable consideration.

SURPRISE
Speaking of birthdays. It was only the Lad’es Bible Class that were supposed to hold their regular monthly business meeting on Tuesday evening of last week at the home of Rev. and Mrs. Hulme.

Hulme says that he expected possibly as many as three or four carloads of ladies and thinking that they might not be able to find the place he waited in the front yard along the street so they would know where to stop. The men did not expect this and Mr. Lodge coming along spied Rev. Hulme and decided to keep right on going. Rev. Hulme then spied Mr. Lodge and thinking no doubt that he was a Hallowe'ener and had come to carry off his front porch chairs, or soap his windows or something of the sort, took out after him across the lots. The faster the Minister pursued the faster Lodge went. The chase some say was clear around the block and when the catch was finally made they were back in front of the house again and not only was Mr. Lodge there but many others. Rev. Hulme was even more surprised to see the men than Lodge (at first) was to see him waiting in the front yard. Some say there were twenty-eight men and thirty-three ladies present—some say that counting the hostesses and children there were seventy-one all told, anyway when yours truly arrived in time for ice cream, cake, etc., chairs were at a premium, they were sitting on the
floor, the stairs were full and even the second floor was occupied by those inspecting the Minister’s study, etc. Everyone had a good time.

It's like this folks. When you come to the edge of the incorporated village of Munroe Falls, STOP! Call up either Mayor Warner or Clerk Shakespeare, request a special pilot who will steer and maneuver your boat between, around and over the numerous chuck holes which are scattered about on that main thoroughfare like defense mines in an English Harbor. (Editor's
Note:) This item was prepared for publication about a month ago at the suggestion of Messrs. Brust, Weidell, and Foster Young, but on account of lack of space was omitted. In order not to disappoint (?) Clerk Shakespeare and others interested in good roads it is now published.

It is reported that Paradise Park is far from being a paradise at this season of the year. Instead of Hallowe'en being celebrated on only one evening a year, as it used to be, the spirit of the times demands a month long season of celebration that takes a more or less vicious form, resulting often times in the destruction of valuable property. This year in Paradise Park, also in other places in Stow, large gangs of boys and girls, some of the latter being old enough to know better, roam up and down breaking electric lights, letting air out of tires (which results in ruined inner tubes), stealing car keys, radiator caps, gasoline, destroying mail boxes (a Federal offense), etc., etc. Some of these things would not be so bad on one evening a year but for a whole month or more the spirit of the devil works out in our children and no one seems to stop them. As a result visitors dare not visit their friends, renters cuss the neighborhood, property values go down, our young people get their practical training in gangster methods. Some of the victims threaten to take over the parental job of chastisement and discipline. All this is not as it should be.

Mention was made last week of a birthday celebration of Mrs. Clifford B. Schafer of Brimfield with Oscar Schafer of Washington as guest. Further notes received this week indicate that with the return of Mr. Oscar Schafer of Spokane, Washington, after an absence of four years, to visit his sister, Mrs. Headlee of 135 Hudson Road, a family reunion was held at the home of Clifford Schafer in Brimfield with seven brothers and a sister and their families present.

Later, three brothers, Oscar, E. E., and T. M. Schafer visited in Marietta, Ohio, where the 150th anniversary of the city’s founding was celebrated. While there an uncle, Clell, was taken suddenly ill and died. They returned and then went back to at-
tend the funeral. Burial was in Lower Salem.

Visitors at the home of T. M. Schafer in Darrowville are Mrs. Lyinda Kellar of Chandlersville, O., and daughter, Mrs. Harry Gross and son, William, of Houston, Texas.

C. B. Schafer of Brimfield, Mrs. Headlee's brother, is very ill at this writing.

QUOTED FROM
"THE LONDON SPHERE"

"The United States contains 6% of the world's area, and 7% of its population. It normally consumes 48% of the world's coffee, 53% of its tin, 56% of its rubber, 21% of its sugar, 72% of its silk, 36% of its coal, 42 of its pig iron, and 69% of its crude petroleum.

"The United States operates 60% of the world's telephone and telegraph facilities, owns 80% of the motor cars in use, operates 33% of the railroads. It produces 70% of the oil, 60% of the wheat and cotton, 50% of the copper, and pig iron, and 40% of the lead and coal output of the globe.

"The United States possesses almost $11,000,000,000 in gold, or nearly one-half of the world's monetary metal. It has two-thirds of civilization's banking resources. The purchasing power of the population is greater than that of the 500,000,000 people in Europe and much larger than that of the more than a billion Asians.

"Responsible leadership which cannot translate such a bulging economy into assured prosperity is destitute of capacity. But pompous statesmen, looking over the estate, solemnly declare that the methods by which it was created are all wrong, ought to be abandoned, must be discarded, that the time has come to substitute political management for individual initiative and supervision.

"There is only one way to characterize that proposal—it is just plain foolishness."
