THE BIBLE AND THE PUBLIC SCHOOLS

On November 10th an article appeared in the Beacon Journal relative to the reading of the Bible in the Public Schools. The article cites a number of reasons opposing its being read in the schools. Indecent, moral harm, immoral, the enemies shout. The gang lined up in opposition to the Bible cry that the Bible and the American form of Government are contradictory, that it would provoke antagonism, that the Bible has been rejected in every field of knowledge which has effected human happiness, that the more religious instructions a person receives the more apt he is to commit immoral acts. This is a summary of the attacks by the enemies of the Bible.

Now, sir, if this tirade on the Book had come from Russian Reds or Hitler’s aides in Germany it should be overlooked as too contemptible to deserve a rebuke, but coming from a gang that live in America, who misrepresent, lie and juggle the truth, these human vultures who seek to destroy the hope of Heaven and the peace of Earth, need to be told their antagonism to the Bible is an insult to the founders, the emancipators and the millions who toil and labor to perpetuate the principles, traditions and worship of this great Nation.

I have never heard in all my life any scandalous indecencies from the Bible read in public. A chicken to me is mighty fine food, however, I never ate its feathers nor its feet, say nothing of its gall and entrails, however, these parts unmentioned at the table are essential in the make up of the fowl.

Is the twenty-third Psalm or the Lord’s Prayer indecent?

Again, that our government and the Bible are contradictory. The underlying thought of the Bible for the human race is a Theocracy not a Democracy, The Hebrews said, Give us a king. This was not God’s plan. If the opponents refer to the sovereignty of Jesus Christ, then I challenge their statement that humanity has ever been less loyal to the Government or the welfare of all mankind by swearing allegiance to Jesus Christ as Lord, Saviour and King.

That the Bible has been rejected in every field of knowledge which has effected human happiness is not so. Such talk savors of an empty head, or a biased spirit, or one who spoke out of step. One field of knowledge that has always been an artesian well, refreshing to mankind, is music. Every great Master, such as Beethoven who has immortalized his name during the past two thousand years has found inspiration in the Bible.

Another field of knowledge is Astronomy. Do faith and hope dull or cloud the research of the human mind in this avenue of enlightenment? Or, tell me, please, have astronomers discarded and cast aside faith in Immortality that they might more accurately nose their instruments in the sky?

Now, who makes the disturbance about reading the Bible in the schools? I am told that the Catholics do, and why? Only that their own interpretation of the
Bible be read, their own interpretation, that is all. So read then the Scripture that is interpreted alike.

I am told again that the Jews bitterly oppose the reading of the Bible in the schools, and why, pray. Because he rejects the New Testament written largely by his own countrymen, the central figure being a Jew and the greatest Teacher of all ages.

If the Jew has a country of his own let him there enjoy his prerogative, but in America let him be an American. The fact that the Jew is obstreperous and self-willed is in itself a discord in a Democracy like America.

Who else objects to the Bible in the schools? I will tell you. He is either an atheist, or a free thinker, or a New Thought, or a fool, or all. And why object to the Bible because it is a rule of faith, of morals, a guide book of life, and they who seek the destruction of this Government know they must first destroy the Bible.

Let our fathers and mothers arise from their graves, come forth and give evidence, Were you demoralized? Did you become an enemy to society, a liar, a thief, or a perjurer? Did you grow up unclean, indecent or become a traitor to law and government because you listened to the reading of the Bible from the bench in the school?

GEO. M. HULME.

SERMON

Digg ing Again The Wells Our Fathers Dug was the subject of our minister's sermon Sunday morning. Genesis 26:15-25 was
the scripture. Did you miss this sermon? If you did it is too bad so don’t miss the next one. Our Minister’s remarks were timely, chips fell thick and fast, most everyone present received their portion. Some leading thoughts were, the purpose of a well, and that the water should be pure, not contaminated, religion should not be adulterated. The sermon showed the shocking condition of abandoned wells; toads, frogs, snakes dead and alive, tin cans, bottles, etc. are deposited there. How about our lives, our Spiritual wells? They are often cluttered with carelessness, cards, drink, frolics, beer, cigarettes, parties, etc. In John 4:14 Jesus spoke of Spiritual water a well within springing up into eternal life. The minister spoke of the happy scenes about the wells such as the meeting of Isaac and Rebecca, he said that the force that lifts the water in the well is the tapping of the currents that flow in the earth. Worldliness declared the preacher never makes pure Christianity.

spoke in the Community Church at Stow.

WEDNESDAY EVENING
In place of the way it was announced last week, Prayer Meeting on Wednesday Evening Nov. 29th will be held at the home of Mr. and Mrs. R. H. Peterman and on Wednesday Nov. 6th it will be held at the home of Mr. and Mrs. Hall.

NO DOORS SLAMMED
With J. C. Russell, chairman and Guy Vough, co-chairman and “on-the-spur-of-the-moment” Community Chest campaign was put over (or across) in Stow this past week.

Not knowing just what they could expect or do—, a goal of one thousand dollars was set and according to reports was well over subscribed.

The committee, it is reported, wish to express their appreciation for the response and for the cordial reception accorded them by all those on whom they called. As one member expressed it no doors
