ROWDYISM

That is a noisy, rough and riotous fellow. Fun and pranks are evidence of youth and vitality, but rowdism is just being tough, low and dirty. Rowdism is like a wild weed, it seeks to possess the land. This age and this troubled world apparently produce a very vicious specimen of this troublesome critter.

This is the first week in October. The daily press recites the rebuke by President Roosevelt of the rowdism in Pontiac, Michigan, when the Republican candidate, Wendell Willkie, spoke there September 30th, tomatoes, waste baskets etc., were thrown.

This gang spirit that becomes unruly and boos and shouts cat calls is the same low and vicious spirit that matures and when full-grown assassinates Presidents and Rulers of Nations.

Only last week in Cleveland, Ohio, in a closing game of ball between Cleveland and Detroit, rowdism broke loose, bottles, tomatoes, cabbage stocks, etc., were thrown at the players, bedlam broke loose, and police with difficulty suppressed it.

Again, this is the same untamed demon that demns and curses law and order in any form or any place. This demon should be chained and cast into the bottomless pit, for his name is Disregard and Disrespect for any rules made for the safe-guard of society.

Let a building stand anywhere unoccupied for a month and rowdism will crash all the windows. This spirit that destroys property is the same breed that boos at reverence, that mocks at religion, that desecrates the Sabbath Day, that laughs at the Church, and pokes fun at the faith of the human soul.

Benedict Arnold was a renowned soldier, but he, too, was a traitor. He poked the eyes out of birds with a hot knitting needle, and tripped his grandmother with a wire under the snow. Those traits developed and he saw no evil in betraying his Country.

Whenever you find lack of discipline and lack of respect, a lack of reverence, you may look for trouble and the beginning of sorrow.

Nothing in this fair land of ours should warrant a strike, it should not be for a strike means hate, it is war on a small scale, and it is almost invariably accompanied by rowdism and violence.

Come, my friends, isn't there some hope of being civilized, must we riot in our labor, riot in our games, riot in our politics and statesmanship? Let us seek out and free ourselves from this evil geni that quarrels, fights and rowdys, this demon that sets Nation against Nation and destroys the peace of the world.

Rowdism of this age knows no chivalry, it has no compassion for the aged, no respect for women, no reverence for God. It's just brutish, selfish, and wicked. Surely, rowdism, vicious and uncurbed, has no place in a civilized world.

Bible Study Lesson Oct. 20

Printed Text—Luke 3:3, 8-17, 21, 22.

Golden Text—Bring forth therefore fruits worth of repentance.

John the Baptist lived many years alone in the desert before he started to preach repentance and the coming of Christ. His message was so powerful that people of all classes traveled into the wilderness to hear what he had to say.

Those who repented were baptized by John, being accustomed to the idea of ablution as an outward sign of inward purification.

Then they asked “What shall we do?” No sermon is more dynamic than the one which makes a man stir out of his smug complacency and say “What must I do?”

John advised them to repent of their wrong doing, to stop any sort of unfair dealings, to see that they did their duty to their neighbors showing compassion and charity.

Repentance is more than sorrow for sin. The tree of repentance must bear the “fruits” of confession, of setting right any wrong done another and of thereafter “living for Jesus a life that is true.”

Rev. Hulme last Sunday morning chose to read the 116th Psalm as the scripture. He noted particularly the verse “Return unto thy rest, O my soul.” If we can only get into the secret presence of God things in this life would be much different. Happy is that man who dwells in the “secret place of the Most High.”

Last Friday Eddie Parsons tried to pep up his furnace fire with a cup full of kerosene. Results, singed hair and eyebrows and a burned forearm. Then—not to be outdone by her husband, Mrs. Parsons managed to get her hand in the power wringer while washing last Saturday. Such injuries, we understand are quite painful.

Mrs. Haynes was in charge of the Missionary story program last Sunday. This is a regular feature of the opening exercise of the Bible school the second Sunday of each month.

On October the sixth 1940 we began a campaign known as, "The Baptist Church School Advance," in an attempt to do as much as we can, with the help of God, to brighten the Somber Shadows that hang over our world. We can see some result already, for which we are glad. This is not a push for numbers that we may build up a lagging Sunday school; Oh no! we are a live Bible school and our only goal is to carry out our slogan and the great commission, "Go ye . . . make disciples teach them . . . and lo I am with you always even unto the end of the world." Why not come and bring the children with you to Bible school next Sunday and learn more about the shadows we are facing. Bible school at 10 o'clock and regular worship service at eleven.

PICTURES

The pictures you see on the page opposite were taken two weeks ago at the Fair in Darrowville. Starting at the top and in the left hand corner the man with the big mouth, (according to Mr. Monteith he is long winded too) really shouldn’t have had his picture taken. In case any of the relatives don’t recognize him he is editor of this sheet. Next there is Mrs. William Hamilton. It looks like she was going to hit Mr. John Hibbard on the head but cast your eyes a little further down and you will see the na’il. Upper right is Mr. Porter Ritchie, well past eighty. He raises lots of flowers they say, has five or six sons and several grandchildren.

Back on the left side again, there is Mr. Frank Dalton (Mrs. Hamilton’s brother-in-law). He’s stirring the apple butter while Will Peck supervises. Incidentally Mr. Peck is the man who won the grain bundle tying contest that evening. John Hibbard who seems to be in danger of being hit on the head with a hammer lives on Hudson Drive. At one time he was township trustee. Next we have Frank Howe who for a number of years printed this paper. Some day we hope to give Mr. Howe a real write up. The man with a cigar in his mouth is William Gerber whose ad frequently appears in this sheet. He sells Blue Sunoco.

Dropping down to the left again there is “Perry” the cop from Hudson. He directed traffic. The black haired young lady next, is Miss Ruth Wallace of Meadowbrook. The boy on the pony is Dale Hissem; in the background Mr. Shiveley and walking beside the pony. Gerald Geistweite. Sitting with her face turned in profile is Mrs. Long of Darrowville. Standing—Mrs. Arba Ritter, and sitting behind the small bouquet of flowers the lady with the perfect complexion is Mrs. Hindle. All these folks we are told helped with the apple butter which you again see stirring at the right.

Left again. The young lady with the abundant dark hair is Ramona Shuman of Meadowbrook. Chas. Stahl stands below. He is the man who sold several hundred dollars worth of advertising for the Grange. Gazing with interest intent is Chas. Call, school board member and one of Stow’s better farmers. Mrs. Ralph Sommers is next and right above you see James Haines. It was two weeks or so ago that we told you about Mr. Haines. Pushing the crosscut saw are Ray Lewis and Dewey Harris. These men each received an axe. They won the sawing contest. Both live on Hudson Drive and raise celery.

Lower left you see Betty Monteith in action. She is playing football with the boys, which was what Mr. Call and Mrs. Sommers were watching so intently. Loree Wilhelm watches Mrs. Monteith trying in vain to escape the photographer and daughter Ruth Eileen seems horrified that we should want to take her picture. Next is one of the sources of Darrowville’s water supply. Lastly you have a factory representative from Twinsburg demonstrating a tractor. These photos were taken by Mr. Baker of Baker Studios, Cuyahoga Falls.

THIS PAPER
From the fuss he makes some are probably of the opinion that the editor of this sheet does all the work. This is not true. Each week there are between fifteen and thirty people who do their bit. And this does not include the postmen, or those who occasionally contribute recipes, personal items, or advertising copy. For example, for last week's paper twenty-one persons in preparing this paper probably spent on an average somewhere between three and five hours each. The list includes the two feature writers, two correspondents, one stenographer, one editor, proof readers, linotype operators, photographers, stereotyper, typesetter, press boy and those who address and fold papers.

And also not included in the twenty-one, though she should be, is the lady who has been at work taking subscriptions for the past few months. Now if we only had a good business manager who could make both ends meet.

NEWS ITEMS, ANNOUNCEMENTS, ADVERTISING
Each week there are those who telephone OV-8771 with news items or advertising too late to be included in the current week's issue of this paper.

As a rule we like to have all articles, announcements and personals on or before Monday evening. The paper is printed on Wednesday, and folded and prepared for the mail on Thursday.

ADVERTISING RATES
Display advertising runs 35c per column inch for the first insertion and 28c per column inch for each succeeding insertion when no changes in copy are made. Advertising in the personal column using 8 pt. type runs 10c for the first line and one cent per word thereafter, minimum 25c.
