ARE YOU EDUCATED

The graduate who never grows beyond his diploma is not educated. The person who is not kind is not educated. The person who has not learned to discipline his body is not educated. The person who is not considerate of others is not educated. The person who has no passion for service to humanity in this troubled world is not educated. The person who refuses time and energy in meditation or study of the Hereafter is not educated.

So, my friend, with the rudiments of learning, such as writing, reading, spelling, figuring, and some evidence of an alignment with the aforesaid curriculum, you may be the proud possessor of an education. A college man are you? Fine. but are you educated? You have a position of trust, but are you educated? You can command a large salary, but are you educated?

All honor and praise to our great and worthy institutions of learning, but look to yourself, give yourself a chance to develop, everything needful is within.

Such men as Benjamin Franklin, Abraham Lincoln, Thomas Edison, and Henry Ford reached the highest round of achievement, and could measure arms educationally with millions of college men. They just matured, they developed naturally, they learned, if I dare say, by instinct. They were kind, honest, disciplined themselves, they sought the great University of Service to all mankind. each of them a gentleman, each obtained an education.

So, my friend, are you educated? A fifty cent dictionary will help anyone to use correct language. Above all don't use profanity and don't use slang. It is cheap and is an evidence of a weakness you have. One is faulty in his education if he talks too much, speaks out of turn, a bit windy. Think before you speak, that is an old adage and a good one.

Education, in its final analysis, is training, training as a soldier or athlete gets training to live a good and useful life. Go to school and college if you can, if you can't, waver not, but get an education.

Learn to be a gentleman or a lady, kind, considerate, good, cheerful, dependable, truthful, useful, build character, build a life of which you need not be ashamed. These are the parts when fitted together that make an education.

Education, no man is educated if he knows not himself. Many there are who live many long years before they discover the powers and possibilities that are within, and no one is educated until he can lay hold and command his own talents.

Again, education is the art of knowing other people. No one can get far or accomplish much until he discovers the strong and the weak elements in others, until he can appreciate the good and have sympathy for the bad in others.

Again, who can claim an education and know not God? The knowledge of Him is the beginning of wisdom, in fact, to have an adequate knowledge of God is not only education, it is life.

GEO. M. HULME
He told them of a man who traveled along the waste land between Jericho and Jerusalem which was robber-infested up to the time of British occupation. This man was robbed and beaten and left for dead. A priest and a Levite passed that way but they both avoided the injured man and hurried on. Then a Samaritan, despised by the Jews, came that way and immediately poured wine and oil on the wounds and took the man to an inn, paying for his care. The Samaritan, then was a good neighbor.

Jesus gave himself to the service of others. He taught us to forget self in the advancement of the well being of all the lives that cross our own. "We say this isn’t practical. But Dr. Edward Francis four times inoculated himself with deadly germs, four times watched the progress of infection in his own body, four times recovered, ready for some new gamble with death so that others might live! Let’s quit talking about its not being

Where waves reach up to whisper to the clouds, or where they roar their message to the shores of man they can speak of nothing higher than a Service of Sincerity.

The McGowan Funeral Home
practical. Let's talk about not having the courage for it.” The Quiet Hour.

Today we have big associated charities and we let them do the work while we rest back on our oars. But there are needy souls today and hurt souls today who wait for the comfort of Christian friendliness. There is loneliness today and fear and it would indeed be regrettable if those who profess no religion were found to live more kindly than we who take His name.

MINISTERS TAKE NOTICE

Since we have quite a number of ministers who take this paper and may possibly read it on occasions here is a verse that was brought to our attention which may interest them. In reading it remember that in many ways ministers of the Gospel are comparable to the prophets of old. It is their business to admonish and warn their people. Here the “Word of the Lord” is speaking to Ezekiel.

“Again, when a righteous man doth turn from his righteousness, and commit iniquity, and I lay a stumbling block before him, he shall die: because thou hast not given him warning, he shall die in his sin, and his righteousness which he hath done shall not be remembered; but his blood will I require at thine hand. Nevertheless if thou warn the righteous man, that the righteous sin not, and he doth not sin, he shall surely live, because he is warned; also thou hast delivered thy soul.” Ezekiel 3, 20-21.

Great is the responsibility of the minister as well as members of the congregation who in turn must remember that when a minister at times tells you some things which you don't like to hear or which hurt just a little, he probably speaks because God has laid the burden of your sin upon his heart. He is just doing his duty. And—if he neglects his duty God will hold him responsible.

THE OLD TOWN HALL

By F. A. Green

The building was erected in 1868. That was the year in which I was born. Mrs. Walter Howard wrote a history of it which was published in the Cuyahoga Falls News in the issue of Aug. 15, 1930. So far as I know it is the only building that Stow Township has ever built for the use of its officials or for public meetings.

Stow was organized as a township in 1808, but where the trustees met up to 1868 I think no one knows.

My birthday is December 7th so I have no first hand knowledge of its building but Ed Wetmore says that the people of the township put it up.

That is they had a Bee. There have always been good carpenters in town and most of the frame buildings in early times were put up that way. The land on which it stands belonged to Oliver Gross. Charlie Beckwith says that Gross was the architect of the building. Perhaps he donated the land on which it stands.

For sentimental reasons I am interested in what shall be done with it.

It is antiquated in structure and would have little selling value but it was very substantially made and considerable money has recently been spent on it.

The land on which it stands I presume is as valuable as any in the township.

My suggestion would be to move the building to the Community Center lot and fix it up for a historical museum.

I hope my idea for its use will bring others.
