MONEY

It is the most debated of all subjects. This is true in most homes, cities, and countries of the world. Again, the undue love of which is the root of all evil. The Congress and House of Representatives of the United States have spent more hours in debate upon money than any other question. It was the great issue of the two parties when Bryan and McKinley contended for the Presidency.

In 1645 the Colony of Virginia was the first in America to attempt the erection of a mint. This was unsuccessful. Seven years later the Colony of Massachusetts established a mint and began to coin silver pieces, previous to this the coins for the Colonies were stamped in England.

However, this is the beginning of the year of our Lord 1941, and strange it may be but it's money we need. One would reason that with several mints running capacity since the year 1652 there should be a great plenty of money, but money, to most of us, is like sand in the hour-glass, and, oh, it slips through so quickly.

Now to the crux of this subject. Do you get, do you read, or do you have given to you The Community Church News? I refer to this paper in which this article appears. Well, bluntly stated, this Paper is in debt, therefore, the good and kind editor together with other responsible parties do not feel good about it. To add to their misery is the fact that The Community Church in Stow is in the act of lifting the last weight of debt on their church. This is obligatory, we are just bracing ourselves for the final tug, then as quickly as we wipe the sweat from our faces we plan class rooms, improvements, and conveniences for our going Church.

However, the issue of debt on the Church Paper may be like a thunder shower in harvest. Something may need be done about it before that convenient day, that future time when our ship would be in, and with a wink at each other and a small contribution the obligation would be at rest.

So, comrades, come near that I may speak a word with you. This Paper deserves to live, this Paper can only live by receiving some support from the subscribers or from many who read it. Church Papers are never self supporting, those that endure, without exception, have some kindly disposed friend who has the means and the desire to back the Paper with money.

Your editor is a kind, christian gentleman, he is not a hard-headed business man to plug for money. Now the editor works on this Paper Saturdays, spare hours, and nights, he gets no pay, no profit, and from many no thanks. The advertisements fail to make ends meet, the subscription money is not much and uncertain. You, who enjoy and appreciate this Paper, should know of these sacrifices. So, here's an immediate and easy way out. Approximately 1100 papers go out every week, let every subscriber 1100 strong forward to the Editor AT ONCE fifty cents for a year's subscription for The Community Church News. That will be $550.00, that
will wipe out the debt, the Editor will be happy, you will feel good about it, the Paper will continue.

So, hear me, all good subscribers, fifty cents each, put it across. Thanks.

GEO. M. HULME

Editor's Note: Our Minister's plan of having all who receive this paper pay us 50c at once, sounds simple, but,—we have just passed through a four months summer and fall subscription campaign during which time many were persuaded to subscribe,—so, it seems almost like asking too much to have them subscribe again so soon. However, any who wish to help in that way are at liberty so to do, (many in the outlying districts were not solicited), likewise, those who promised our agent, Mrs. Schnee, to pay, but as yet have not paid, can pay us any convenient time soon. Furthermore, from any who wish to send the paper as a gift to friends or relatives we shall be glad to receive contributions. In times past numbers of subscribers have been added to our list in this way, in fact twenty dollars to be used for gift subscriptions was received this last week. Advertisers, also, will help greatly by paying their bills promptly for after all is said and done those who advertise pay the largest part of the cost of publication. You can do much for us by patronizing our advertisers and letting them know where you saw their ad.

Bible Study Lesson—Jan. 5

Golden Text—We have not a high priest that cannot be touched with the feeling of our infirmities. Heb. 4:15.

In this discussion Jesus teaches that men should not speculate
about what will happen to other people but consider the subject of their own individual salvation. They should not speculate on the wickedness of others that may have caused their destruction, but rather look into their own hearts and repent.

When Jesus was teaching in the synagogue on the Sabbath day, he saw among the people a woman bent over with an infirmity she had endured for 18 years. The woman perhaps was alone and thought no one cared for her, that suffering had to be borne without aid or sympathy. Very likely she was short in stature because of her affliction and unnoticed by anyone else, but the Savior observes those whom man often ignores.

Christ’s ability and eagerness to deliver this woman is a guarantee of his continued willingness to deliver us all from the weights of care and sin that bow us down.

“The difference between this woman in the one case bound and wretched and in the other straight and glorifying God is the difference between Christians bound by appetite, pride or sin and when set free by the power of Christ. It is the difference between the average Christian experience and what God means we should be.” J. Wilbur Chapman.

The first week of the new year is a good time to start a new life. The old troubles and sorrows and failures can be put behind and looking to Jesus for our source of strength we can cast off our burdens and walk erect in the sight of God. Hazel Wheeler

MEN MEET

The Men's Class will meet Sunday evening, January 12th at the church. Election of officers will occur at this time.

Mrs. Green's Kindergarten

Mrs. Lura Green, director of Mrs. Green's Private School for Children of Pre-School Age, announces that classes will resume January 2 after the holiday vacation.

Several Stow children between the ages of three and six are enrolled in Mrs. Green's school. Other Stow parents who wish to enroll their children should call Mrs. Green at WA-1589 as soon as possible. Enrollment is restricted and the morning and afternoon classes usually fill their enrollments rapidly.

Mrs. Green provides transportation for Stow children at a very nominal rate and where there are more than one in a family attending, further reduction in transportation rate is offered.

Children who have attended Mrs. Green's classes are better prepared for public schools and they acquire the knowledge of doing constructive things with other children. Mrs. Green is highly recommended by parents and educators alike. Her kindergarten classes cost only a few dollars a month per pupil and it is a very wise investment. Call WA-1589—Adv.
