GOODBYE TO THE OLD YEAR

We ought to think seriously about closing the house called 1943 and moving into the new house named 1944. 1943 has been a historic year, and world revolution like the swirling waters of a great flood inundated the whole earth. The world is on fire, men run to and fro on land, sea and air unable to do much about it. It is likened unto a wayward boy, bent on ruin and having forsaken his father's instruction. In 1943 more men shouldered guns and went forth to war than in any previous year of the world's history; more ships were built to haul soldiers, cannons, dynamite, anything, everything that would destroy property, and human flesh. More money was spent to kill men, white, red, yellow and black men, than in any previous year that man has lived on the earth. Let us hope that sometime little children will read in text books in school of the year 1943 or thereabout, when the world was mad, and human flesh was cheap, and of a generation that snarled the affairs of men, and how through faith in God, and a new allegiance to Jesus Christ a new world was built. A world wherein dwelleth righteousness, and from the lessons of 1943 and long weary centuries before, from the school of hard knocks, and the bitter experience of godlessness, and evil thinking, man at last has found the way, a way prepared from the foundation of the world; but refused and rejected by the children of men. That there could be a way of life not so rocky and hazardous no man should question. So let 1943 be gone; it has had its chance, it is history, it is no more. Perhaps the world is in its deepest valley, the downgrade may now turn sharply to an uphill climb, to a tableland of promise, a golden age of dreams and hopes. Mark well, however, that harvest only comes by planting, the well filled baskets of the evening are realized only because of the toil of the morning. The resolutions and life of today spell victory and achievement in the years to follow. So we close the gate called 1943 and we enter new and untrdden fields of 1944.

Sunny days will follow clouds and rainfall, profits and loss will be written to the right and left of the ledger, sickness and health will follow each other like the surges of the sea. All of these and many more are the common lot of man. But the mistakes and the sins of yesterday need not be carried into the tomorrow, let us leave them behind as we leave the wrecked body when the soul is released for home. Never in human history has so marked a privilege and challenge confronted the churches of the earth as in the year 1944. Nowhere else on earth past, present or future is there such light, truth and guidance as is given to the people of God. So my people, up and be doing; give of time and energy for your souls' needs, come to the aid of the faithful. Life is too short to pout. Come join the band that has purpose in their hearts, purpose and will to bring in the new day. Stand faithful and steadfast with the church in your community, for the church will be the stronger for your right arm, and you will be the stronger for the support of the church, and the
wanderers of the world will be fewer because of the highway and the added glow upon it. So now my people, if the Devil has been at large in 1943, let us have a change and make God our Master, now, and for the years that are to follow.

BIBLE STUDY LESSON
January 2
JESUS BEGINS HIS MINISTRY

We are beginning a series of lessons in the book of Mark. This is not a long book, only sixteen chapters, and it would certainly be a good start for a new year if we would all plan to read Mark through at least once in the next few weeks.

Mark depicts Jesus as a servant, “For even the Son of man came not to be ministered unto but to minister.” Jesus is described as a worker rather than a teacher, yet it is made plain from the very first that he is the Son of God. The key word is that of an obedient servant, “straightway.”

John the Baptist called men to repent and foretold the coming of Jesus. Jesus went out into the wilderness to hear him and was there baptized by him in the Jordan. As he came from the water the Spirit settled upon him like a dove and a voice from heaven said, “Thou art my beloved Son in whom I am well pleased.” Thus he was ordained to his ministry. The knowledge that he had won the approval of his Father must have been a great help in the next forty days when he was alone and had to make a choice between the sufferings of the course he had chosen and the splendor Satan attempted to offer him, if he would bow down and worship him.

At the baptism of Jesus the Trinity is present, making the occasion most solemn and impressive. Jesus is on earth as a man,
the Holy Spirit descends from heaven and the voice of God is heard above. It is natural to think of the Holy Spirit as connected with Jesus, with a minister or some saintly person engaged in Christian work. When we ordinary Christians fail to take the Spirit into account, we are trying to do the work of a power plant with a one-cell battery; we are trying to operate under our own steam when the Spirit is ready and willing to do marvelous things through us if we will only let Him.

FISH CREEK
The week before Christmas was moving week at Fish Creek, when a moving van took the Flemings' household toward Kent and another van took the Smith goods towards Akron, which left the former H. B. Stein home, also the Wm. Holmes' ready for the new owners.

The Althouse family from Columbiana moved into the former and the Harris family, with her mother, Mrs. Marxen, from Kent moved up on the hill next to Earl McGowan's country estate.

Come all ye people, for whom it would be handy to stop at Ted Brittan's home at Fish Creek, and leave your renewals or a new subscription, or sponsor a page of soldier letters ($3.30 per issue).

Ted's daughter Fern will gladly give you a receipt and forward the money to the Stockman's at once.

Taking it for granted you read Mr. Mitten's article in Dec. 17th issue, you will realize in this way we can show our willingness to help.

Thanking you for each subscription price you have given to me in the past, also the aid you have so willingly given to help keep the paper going to our Stow folks in the service. (paid adv.)

V-MAIL LETTER
Dec. 14, 1943
Hello Mr. Stockman:
Will drop you a few lines to let you know I really haven’t forgotten you, even though it has been quite sometime since I’ve written to you. I have been receiving the CC News quite regularly, and enjoy it more than ever now, since I’m out here in the Hawaiian Islands. If I’m not mistaken, I think there is another Stow man or two here too. If I knew them or know how to find them, I would certainly do it. Maybe they will notice this letter in the C. C. News and get in touch with me. I sure hope so.

When I first arrived in the Islands, I didn’t think much of them, but since then I’ve changed my mind considerably. The warm climate is just what I like best of all. I’ve been on a few passes to Honolulu and Waikiki, and enjoyed them a lot. Honolulu is a very busy town most of the time, in fact, its just like being in Akron on a Saturday afternoon, like it probably has been every Saturday for quite sometime now.

Well, I’ll have to close now but before I do I want to tell you I appreciate your sending the C. C. News very much, and also want to wish each and everyone that makes it possible for me to receive it, a Very Merry Christmas and a Happy New Year.

I remain,
Just one of the boys,

LETTER

Dec. 11, 1943

Dear Mr. Stockman:
A line to let you know of my appreciation of the C. C. News. Received my first copy yesterday, since entering the Marine Corps. In fact, for some reason, I received two identical copies the same day.

When I came to the receiving depot at San Diego I saw a placard which said the Marine Corps is the best military organization in the world. I'm completely convinced of it now.

Our 7 weeks boot is hasty but quite complete. I've just finished my first month (and still no pay day).

When I finish boot I may go to one of two places. To learn aerial navigation or secondly to Radar school in Chicago. Only time will tell, so keep the C. C. News coming and many thanks.

P. S. At present I am at Camp Matthews which is the Marine Rifle Range. But we have our church services no matter where we go, for which we can all be thankful.

ED. NOTE: We have just been made aware of the death of your father. You have our sincere sympathy. Death is something that comes to all of us sooner or later and while we seldom have any choice in the matter, one should always be thankful for the years that it has been permitted us (or any of our loved ones) to spend upon this old earth. Let us hear from you again. H. J. S.

V-MAIL LETTER
Dec. 8, 1943

Dear Mr. Stockman:
Yesterday I received two copies of the News and was very glad to get them.

After eighteen months overseas I am now "Somewhere in England." Rather nice country but the bars and pubs sell out the "scotch" within an hour or so after they open and the beer, it isn't too good.

Are there any of the Stow fellows over here with the same APO number as I have. I'd like to look them up. I have an eight day furlough coming and would have a chance to find them.

This letter is primarily to thank you for the C. C. News and let you know the change of address.

ED. NOTE: Thanks for change of address notice. You didn't say whether or not you were ever in on that "first hour" at the pubs. Personally we'd advise you to pass it up and all the others hours too. There is a verse in the Bible referring to strong drink, which runs something like this, "at last it biteth like a serpent and stingeth like an adder." Will try and notice this week when we mail out the overseas papers if there are any with the same APO as yours. Will let you know. Write again and tell us more about England.

Dear Editor:
I want to thank you for sending me the C. C. News—seems good to be able to keep up with the guys and gals in Uncle Sam's uniforms! Seems strange to me

Dear Mr. Stockman:
I guess it is time to drop you a few lines for I have moved again and this is the best move that I have made yet, we are living in tents in the middle of a valley surrounded by mountains and it sure is a beautiful state and I also think it is a very healthy state. We are 27 miles from the nearest town so we don’t get to town very much. Well I guess I will sign off for now and I want to thank you again for the C. C. News.

LETTER
Dec. 16, 1943
Dear Mr. Stockman:
I have finally decided it time that I take a few minutes and drop you a few lines. Though there is very little here to write about. Since last Saturday we have had some terrible weather, which I think you have had some back home. The weather was so bad for a couple days no boats could run. We have had a touch of the flu epidemic here but I was one of the more fortunate not to have it.

My letter writing was just interrupted by chow call. But chow is over with, so I can carry on. We have a forty foot boat here...
to run between the two islands; I help on it at times, and yesterday we made a trip, and the rudder broke off so we had to stay all night. They sent a tug boat over after us this morning.

A couple guys just got playful and had a water fight with fire extinguishers.

I wish to thank you and all of the swell people of Stow for making it possible for us in the service to receive the C. C. News. Wishing each and everyone of Stow a "Merry Christmas" and a "Happy New Year."

December 11, 1943

Dear Mr. Stockman:

Just a few lines to let you know we arrived safely on the desert. I would have sent you a letter from Camp Phillips but they kept me busy. I was the company reporter and all my spare time was taken up. Out here I think I will have a little more time for corresponding. There has been a little more added to our address so please notice the ending. This morning after church I was reading some of the old church news and found out where Ob. Harold Robinson was on his furlough from Los Angeles, Calif. Well with me being only 180 mi. from there I wonder if you might send me his address. I have hopes in getting a three day pass next month or so and I could visit him. Well it is time for me to get dressed for the Hollywood Show tonight starring Jimmy Gleason, Bob Roberts, comedian, Irene Janis, singer, Harry Schilling, magician, Barbara Gay, singer, Margaret Whiting, singer and Romentta Barnett, also a singer.

I wish you would thank the Culture Club for the very lovely Christmas card. I will close now. Maybe have time to write to George Wheeler who was also a Stow boy, who is now overseas.

United States Pacific Fleet

Dear Mr. Stockman:

Well here I am again with another new address. You must have a hard time keeping up with all of the fellows and their address changes.

I just received the Nov. 26th issue of the C. C. News and as usual I was glad to receive it. My buddy always asks me if I have received it yet and he seems to like it as much as I do. The articles that he seems most interested in are those written by Mr. Mitten.

Butch Arnold's address in the last issue so I guess I should drop him a line and see how he is making out.

Would you please give me Bob Fietz' present address, we seem to have lost contact with each other in our movements about the country?

Stow seemed to have quieted down since the last time I was there. Maybe it is because all the old gang has moved out. It is still the same old Stow though and it will be the same when we all get back and put on our civies again. It doesn't seem possible that so many fellows from Stow could be in the service. I had to look twice the first time I went past

the community honor roll, before I could believe that it belonged to Stow.

THE HOME FRONT

This week I want to talk to the young people who are in the uniformed forces of the United States. Somewhere I have gotten the idea that some of you are worrying just a bit about how some of us back here are making out; so I'll try to give you some information along that line.

First I shall talk about food, as I know that food is always one of the most discussed subjects in any army. You probably all have heard of our system of rationing foods by points, one color of stamps being for fats, meats, cheese, butter and canned fish; and the other for processed fruits and vegetables. Fortunately the whole system of points was understood before the past gardening and canning season, and most of us have large stores of canned fruits and vegetables in our cellars. Our allowance of sugar for canning was adequate in most cases and could be gotten at all ration boards without much bother. Coffee isn't rationed at all any more. The price of sugar has kept remarkably stable, usually around seven cents a pound. Bread is an item that has stayed about the same in price. I can still get the same loaf for thirteen cents that I have been getting for

years. Butter was a little hard to get some time back. Now we get all we need, and the price stays around fifty cents. Neither poultry, eggs, fresh fish nor milk is rationed as yet, and they all go pretty well at our house. The meat counters are usually filled with good wholesome meat. Maybe some of the more particular ones can't find just what they want every time they go, but I always find several items that suit me.

Shoes are rationed. Some people may find this a little hard, but all my friends are getting along nicely. All of our family have shoe points waiting to be spent. In fact, two of mine are still in the ration books. Every patriotic person here at home saves rubber wherever he can. Tires are scarce; yet anyone can get a tire recapped when it gets smooth. From what I hear, a lot of fellows are going to recap tires after this war that they formerly would have thrown away. Cars are being nursed along also that would have been junked before. I believe that is as it should be. We don't grow iron ore as we grow corn or oats, and when it's all used up in America, it is all gone. I think the policy of replacement, where you have to turn in the old article to buy the new one, would be a good one for peace time. We did have a little scare a while back about fuel. Still we have been able to get all the coal we needed. I even have plenty of wood for the fireplace.

Really I think we are living as well here at our house as we have lived for years, and I believe that most could say the same. I believe that the whole population is better fed this year than it has ever been before chiefly because more people have the money with which to buy food. Of course, it's nice of you to be concerned about us back here, but we're getting along nicely, we want you to know.

One thing may be worrying some of you boys that had a lot of us talking during the last war—you girls. Why one of our most doleful complaints used to go, "I must hurry back for someone else may be there while I'm gone." If there's anyone "there" in this war, I'd like to know where he'd come from. If he's as much as peep around a corner, several draft boards would have posses out scouring the countryside for him. I expect them to be using bloodhounds soon. Now the girls have a song which fits the occasion. It goes, "They're either too young or too old," and boys, let me tell every one of you, they mean just that, because in this war the girls are waiting for the day when the streets are gay again with boys who are neither too young nor too old.
