THAT EXTRA EFFORT

We attended a business meeting last night, at which time church officers for the following year were elected. Previously, in conversation, the chairman of the nominating committee seemed to be almost at his wits end because of the disinclination of several to accept office. This started our thoughts about what it took to be an officer in a church organization. This answer came to us: "It takes extra effort, extra effort over and beyond that required to make a living in this life."

Extra Effort! Extra Effort!! Let's see! We wonder if after all many of life's most worthwhile accomplishments are not brought about through extra effort.

Last week school teacher Joe Mitten wrote of rabbit hunting. Apparently it now takes extra effort to climb those hills seventy miles to the south in search of rabbits. But—the extra effort put forth had its reward.

Furthermore—if Mr. Mitten will pardon our remarks, Stow citizens will remember that he puts "extra effort" in maintaining a lumber yard for their benefit; he also puts forth "extra effort" in planting thousands of pine trees for the benefit of posterity and, if you please, "extra effort" in writing articles each week for this little paper. He does other things too, though his regular occupation is that of school teacher.

Then—our mind goes to another person. This time it is a lady. Besides maintaining a home for a sizeable family which, we would say, is about all most people expect of a housewife, she puts forth extra effort visiting the sick of the community. She even spends herself in helping them in their home, cooking for them, doing their washing, nursing them. Then, when canning season is on, we have been told she puts forth "extra effort" and cans several hundred extra quarts of fruit and vegetables that there may be some to give to those who need it later on. Many of you know her. Quite likely she lives in your neighborhood.

Turning our thoughts in a different direction. We are thinking of a young man. His home in Stow. His mother is a widow. He is a World War II veteran. He attends a nearby university, where he is much further along because while serving on foreign soil he put forth "extra effort" and pursued studies in certain subjects by mail. For this he received college credits that otherwise would not have been his had he not put forth that EXTRA EFFORT.

Along this line we could continue for sometime. Club work takes extra effort; P. T. A.; that little business on the side of raising flowers, chickens, etc.; all "extra effort" occupations.

But now we would have you think of that extra effort that could be put into the Lord's work. Not that the things just mentioned are contrary to His Will but often in our club work and what not, our personal interests seem to be put first.

No one we know makes a living teaching a Bible Class. No one we know makes a living being superintendent of the Sunday School. Neither does any one make a living conducting a prayer meeting tho often times ministers of the Gospel make it a part of their work. Deacons and elders in the church are not paid. Trustees serve without compensation. All these jobs come under the heading of "extra effort." But, we ask, how much extra effort does anyone give them? Those we mean who fill the offices.

The Apostle Paul about whom we have been studying this quarter was a tent maker by trade. He probably worked at it much the same as other tent makers of his time. They worked a certain number of hours. Paul probably worked the same number. BUT! Paul did something else besides. He put his "extra effort" into work for his Lord. In fact this "extra effort" job so far overshadowed his regular occupation that it changed the eternal destiny of millions. Seldom do we think of Paul as a tent maker, but rather as an apostle of the Living Gospel, as a missionary on fire for the Lord, as one who suffered much for his God. Would that we could have some small fraction
of the vision and the fire that was his.

The tragedy is that many of us could have this vision, much the same as Paul, if we but chose. Maybe not just the same, but in some way, the Lord reveals himself if we but listen. If we but listen! Then our churches would no longer be the weak vessels that they are now. Small differences among members and pastors would fade into insignificance. Self would be eliminated in an all consuming passion for a grand and a glorious cause. There would be no question about an evening service, or a mid-week prayer meeting. The attendance would mount to 100, 200, 300, 400, 500. Our young people would make great decisions for the Lord. Some would go out to be ministers, others missionaries. More souls would be born again.

But, it does not seem to be this way. Our extra effort for the Lord is weak. Rather do we choose to try to take the World and the Devil by one hand and the Lord by the other,—which thing cannot be done. If we but knew it,—this is tragedy of the first order.

In two crowded cars members of the Young People's Bible class, Stow Community Church, journeyed to Cuyahoga Falls last Sunday where they had dinner together. Afterwards they attended the Sing Fest of the Southern Gospel Singers held at the Akron Baptist Temple. They report a grand time.

At 2:00 p.m., when the program started not a seat was left in the large auditorium. Those in the party were Frances Agee, Barbara Damon, Donna Rae Davis, Colleen Fairbee, Marybelle Fairbee, Frank and Ruth Godfrey, Danny Harruff, Jim Snyder, Marc Stockman, and Betty Vogel. Frank Burmeister and Odwin Stockman went as far as the Falls with the group, but after the dinner, decided the cars were too crowded so came home.

Last week several news items were received too late to be included in the paper. Also considerable advertising was omitted for one reason or another.

Again you are reminded to please send in your small ads and news items or announcements early in the week; not later than Monday night if possible. Sometimes small ads or short items received later can be squeezed in but it is not probably with our present setup that they will be included. Our press which was repaired and run for three weeks is broken again. While new parts have been ordered, these parts will not be received for sometime. Meanwhile our regular routine of getting out each week's issue is about like this: Typed Monday evening in Munroe Falls; linotype set Tuesday in Cuyahoga Falls; forms for pages set up in Stow Tuesday and Wednesday evenings; printing done in Akron on Wednesday and Thursday nights. The paper is then folded and prepared for the mail on Friday in Stow, leaving Stow Postoffice the first thing Saturday morning, which makes eighty percent of the copies delivered to subscribers the following Monday in place of Saturday as formerly. We regret this late delivery, but it seems necessary to do it this way in order to retire at a reasonable hour each evening. Furthermore, so no one will get the impression that one person does all the work, there are still several who send in news items at articles more or less regularly. Then there is Mrs. C. V. S. who is our most efficient typist; the Falls News or Summit Publishing Company who set our type; one H. J. S. who sets the forms for the pages; and Mr. Wendell Weeks of Akron who day times works for a living as a pressman in a large print shop and who does other printing nights, as a hobby.

Then on Friday various ladies fold the paper and prepare it for the mail; last week it was Mrs. Ault, Mrs. Davis, Mrs. Dike and Mrs. Stout. The week before it was Mrs. Stout, Mrs. Weyrick and son Odwin. Lest you think that is all, it is necessary each week to tear down the type, putting away the ads that are to be re-run, and then on occasion returning the old type metal to the Falls to be used over again in the process. The work of

tearing down the forms is usually accomplished by our younger son while much of the heavy transportation work is done by the second boy. (Now a man). Saturday is a day for bookkeeping, making out bills, etc. We should add that when she is home, friend wife does much toward collecting news and advertising over the telephone, also helping in many other ways. So now, if you have read this far you will understand why it is necessary to have copy for publication in early.

FOR SALE: Canary singers, a beautiful selection. Also bird supplies. F. E. Hawk. 136 Edgewood Drive. OV-8742. (Adv.)

Japan.

Dear Sir:

Just a note to thank you, and all your associates who make it possible for us to receive the C. C. News. I have been receiving the paper regular and appreciate the news of home, needless to say. It might be of interest to you to know I am taking a little trip starting Dec. 5th. I work in the Mail Directory here in Yokohama as you probably know. This Directory serves the whole Pacific area. So, I guess Pop McArthur has decided we are working too hard. Anyhow the Pacific Area Command is setting up directories in Keijo, Korea, Shanghai, and Manila. They are set up, but need some know how. So, our C. O. and yours truly are going to Keijo, Shanghai and to Manila via Hong Kong. It should be quite an experience. We are flying, and expect to be back by Christmas.

Thanking you again for your time and effort in publishing the news.

Sincerely yours,
